Autoclave Class B - 45 L

Take the worry out of sterilization.

**Supercharge your sterilization efficiency.
No more long waits.**

No one likes waiting too long for their sterilized loads. With the larger 45 litres chamber, it's no longer an issue. Unlike the smaller and more common 18-25 litres Class B Autoclaves, the EQUITRON 45-litre Class B Autoclave drastically cuts down on the overall sterilization time and efforts for practices processing larger load volumes. With the ability to significantly sterilize more loads in a single cycle, it takes the hassle out of sterilization. This means less time spent on sterilization and more time devoted to patient care.

FEATURES

- Automatic water filling
- Integrated water reservoir
- Optimised chamber loading
- Integrated cycle data printer
- Integrated label printer for load traceability
- Passes the Helix Test - for assured sterilization
- Safe & long lasting chamber manufactured to ASME standards
- Durable SS 304 chamber
- Electric interlock for lid lock safety
- Automatic door locking & unlocking enhances user safety and convenience
- Lid locked when under pressure
- Automatic water quality check - protects the chamber from corrosion
- Over pressure safety
- Audio & visual alarms
- Timed cycle start for absolute flexibility
- Easy to use intuitive colour touchscreen controller
- Bacteria filter to purify incoming air from the external environment

TECHNICAL DATA

Description	Unit	#7474B-45
Capacity	L	45
Inner Dimensions	mm	Ø310 x 600
Outer Dimensions (W x D x H)	mm	580 x 730 x 655
Loading Type	-	Front
Total Power	kW (approx.)	3
Temperature Range upto	°C	134
Operating Pressure	psi / kPa	30 / 206.8
Duty Cycle	-	Four cycles in eight hour shift
Min. Installation Size	mm	500 x 570
Packing Dimensions (W x D x H)	mm	630 x 815 x 725
Net / Gross Weight	kg	105 / 115
Optional Accessory - Trolley Stand can be offered on request.
